

Environmental Management Policy

Aussie Enviro Excavations is committed to undertaking its activities in an environmentally responsible manner and effectively managing any risks that may have an impact on the environment. Aussie Enviro Excavations recognises and is committed to environmental management being an essential element of all aspects of its operations.

In implementing this policy we will:

- Aim to achieve zero incidents through identifying potential risks to the environment before commencing a job and by establishing a program of reporting environmental hazards;
- Comply with all applicable environmental laws and regulations and other requirements including customer and contractual obligations;
- Ensure that environmental considerations form part of our business planning and decision making processes;
- Promote a culture of responsible environmental management is promoted to all parties including employees, contractors, suppliers, customers and stakeholders;
- Set measureable objectives and targets aimed at controlling significant environmental impacts and aspects;
- Provide adequate and suitable resources to implement and maintain the environmental management system;
- Actively research and invest in carbon efficient equipment as technology allows;
- Provide clear communication through the implementation of information and training and encourage effective participation in reducing carbon emissions and wasteful practices;
- Continually improve our environmental performance; and
- Continually review the adequacy of the environmental management system to ensure it remains effective.

Management are accountable for the development and implementation of this policy as well as responsible for providing leadership, resources and support to ensure that activities are undertaken in a manner that at all times considers environmental risk.

All employees and contractors have a responsibility to actively adhere to developed environmental policies and procedures as well as report any environmental impacts, hazards or potentially damaging issues to management.

The QHSE Coordinator is responsible for keeping this Policy up to date. A formal review of this Policy shall take place annually.
